

X-TubeProcessor®

Basic

Your Tube-Processing —
Simply Automated

Get your hands free for your qualified laboratory work.

With the X-TubeProcessor_Basic, time-consuming manual capping and decapping of tubes in your laboratory is a thing of the past.

Longer walkaway times, especially with infeed-belt for automatic feeding of racks

Fast and Reproducible automated process stabilized by control sensors

No interference with laboratory work thanks to compact size and quiet operation

Simple usability due to plug-and-play principle, easy to use software and practical functions such as touchscreen and quick cap eject

Cost efficiency by a high degree of product maturity and comparatively low purchase price along with small series quality

Free your staff from manual work and associated risks, like contaminations, errors and repetitive strain injuries

Key functionalities of the Basic

Imagine your employees just place capped or uncapped micro screw tubes into the device and then devote themselves to more valuable activities. Thanks to the X-TubeProcessor_Basic, risks resulting from hazardous substances or human errors are a thing of the past.

Process time per 96 tubes
(Serial processing)

10 min. Capping

25 min. Capping and labeling

Service at HTI

To avoid operational downtime, we proactively maintain our devices on a regular basis both on-site and via remote maintenance. Moreover, in our training courses you will gain all the knowledge you need for a proper use of your device. These and other services can be part of your individual service contract.

Your Benefits

- Service-Level Agreements
- Installation at a fixed price
- On-site maintenance and service
- International service-network

DIN EN ISO 9001

Our DIN EN ISO 9001 certified quality management ensures the highest process forms of cooperation, planning and legal security. Regular audits form the basis for continuous improvement and for delivering the highest quality at all times.

X-TubeProcessor® Series

Our powerful and sustainable solutions for your laboratory processes.
The right device for every need.
